Pullback Tools

00503-205-QS	<i>10,000 lb Quick-Swivel</i>
QL-305	<i>Quick-Link for 00503-205 Swivel</i>
QL-310	<i>Quick-Link for 00503-210 Swivel</i>
EC42-FB500-304X	<i>Eagle-Eye for 4.25" Eagle Claw (00503-204)</i>
EC50-FB575-304X	<i>Eagle-Eye for 5" Eagle Claw (00503-204)</i>
IF50-FB-304	<i>Iron-Eye for 5" Iron Fist (00503-204)</i>

3.25"

Melfred Borzall's Patent-Pending FastBack System is the quickest and easiest way to get product pulled and the job finished. Now the same housing, tailpiece and bit used on the pilot bore can be converted in to a reaming tool for soft short shots in soft ground.

Quick

No pipe-wrenches here! Change a few plugs and tighten a few bolts and the drill head can ream.

Versatile

Our wide selection of tailpieces and interchangeable cutters makes it easy for anyone to ream up to a 12" hole. various pullback tools give the option of pulling with an Eagle Claw, Iron Fist or just a Bolt-On Blade.
